Happy Spring!

Some days it seems like we are there and some days it doesn't! Hopefully we will have the warmer weather soon and be able to move onto some of our spring projects that we have planned.

We are excited about our latest project where we will be creating a video to enter in the Chinook Board's Agriculture Contest. It is such a great topic that is applicable to everyone in our school.

Easter Break will be here before we know it and after that the year will quickly slip away as it gets so busy with year end activities!

Happy Easter!

Mrs. Dietrich

The K-2 health class is just finishing our unit on the Human Body. Most of it was review from earlier this year so we moved through it very quickly. We reviewed what the heart, brain and lungs do, and where the organs belong in our bodies. We also discussed the intestines, bladder and stomach. They should have brought a small booklet home called "My Amazing Body". Please read it with your child! Our next unit is Healthy Relationships, Feelings and Behaviours.
